Location: Hyderabad, Telangana

Professional Summary

- Around **2.6 years of experience** in designing and developing responsive, user-friendly web applications using **React.js, JavaScript (ES6+), HTML5, CSS3, and Bootstrap**.
- Proficient in building **dynamic single-page applications (SPAs)** with React.js, integrating **RESTful APIs**, and managing state using **Redux / Context API**.
- Strong expertise in **responsive design, cross-browser compatibility, and UI/UX best practices** for delivering intuitive user experiences.
- Hands-on experience with **Git & GitHub** for version control, branching, pull requests, and team collaboration.
- Skilled in using **React Developer Tools, and Postman** for debugging, testing, and API validation.
- Familiar with **Agile/Scrum methodologies** and tools like **Jira** for sprint planning, task tracking, and workflow coordination.
- Adept at **optimizing frontend performance**, implementing reusable components, and ensuring maintainable, scalable codebases.
- Knowledge of **modern frontend build tools** such as npm, Web pack, and Babel.

Education

Bachelor of Technology in Electronics & Commination Engineering (ECE)

- 2018

Technical Skills

Frontend: HTML5, CSS3, Bootstrap, JavaScript, **React js**

IDE: Visual Studio Code

Testing: Postman

Version Control: Git, GitHub

Operating Systems: Windows

Others: JIRA

Professional Experience

Savina Software PVT LTD.

Feb 2022- Nov 2024

Software Engineer

- Developed responsive and interactive **user interfaces** using **React.js, JavaScript (ES6+), HTML5, CSS3, and Bootstrap**.
- Built **reusable React components** with proper state management using **React Hooks and Context API**.
- Integrated **RESTful APIs** with frontend applications using Axios/Fetch for seamless data flow.
- Designed and implemented **form handling, validation, and dynamic rendering** to enhance user experience.
- Collaborated with backend teams to ensure smooth **API integration** and consistent data handling.
- Optimized frontend performance through **lazy loading, code splitting, and efficient rendering**.
- Ensured **cross-browser compatibility and mobile responsiveness** across multiple devices.
- Worked with **Git & GitHub** for version control, code reviews, and collaborative development.
- Participated in **Agile ceremonies** such as sprint planning, daily stand-ups, and retrospectives for effective project delivery.

Project Name: HIS (Health Insurance System)

Domain: Health Care

Description:

This project is a web-based application that manages health insurance plans, eligibility determinations, user accounts, and administrative tasks for New Jersey citizens. It features secure user authentication, seamless communication between frontend and backend, and efficient data handling.

Roles and Responsibilities (Frontend Developer):

- Developed **responsive UI components** using React.js, JavaScript, HTML5, CSS3, and Bootstrap.
- Integrated **RESTful APIs** with **Axios** for real-time data updates.
- Implemented **form handling, validation, and dynamic rendering** for user accounts and insurance plans.
- Managed state efficiently with **React Hooks and Context API**.
- Ensured **cross-browser compatibility and mobile responsiveness**.
- Collaborated with backend teams for seamless **API integration** with Django REST Framework.
- Optimized performance via **lazy loading, reusable components, and code splitting**.
- Used **Git & GitHub** for version control, code reviews, and collaboration.
- Contributed in **Agile ceremonies** (sprint planning, stand-ups, and retrospectives).

Environment: Python, Django, Django REST Framework, ReactJS, JWT, MySQL, Git, GitHub
