Career Objective

Having 2.5 years of hands-on experience in Full Stack Development. Specializing in **Frontend development**. Proficient in **React.js, Redux Toolkit, JavaScript (ES6+), HTML5, CSS3, and Bootstrap**. Experienced in building responsive UIs and integrating REST APIs. With strong problem-solving skills and a continuous learning mindset.

Professional Summary

- Proficient in frontend development using **React.js, JavaScript (ES6+), HTML5, CSS3, and Bootstrap** to build responsive and user-friendly web applications.
- Strong experience in developing **Single Page Applications (SPAs)** using React.js with reusable components, React Hooks, Context API, and Redux for efficient state management.
- Experienced in **integrating REST APIs** with frontend applications to ensure seamless data communication between client and server.
- Strong knowledge of **responsive web design**, ensuring compatibility across mobile, tablet, and desktop devices.
- Skilled in optimizing frontend performance, improving UI responsiveness, and maintaining scalable and clean code structure.
- Hands-on experience with **modern frontend build tools** such as npm, Webpack, and Babel.
- Experienced in debugging and testing applications using **React Developer Tools and Postman**.
- Proficient in using **Git & GitHub** for version control, including branching, merging, and pull request management.
- Familiar with **Agile/Scrum methodologies** and tools like **Jira** for sprint planning, task tracking, and team collaboration.

Technical Skills

Frontend: HTML5, CSS3, Bootstrap, JavaScript (ES6+), React.js, Redux Toolkit

Backend: Python, Django

Database: MySQL

Version Control System: Git, GitHub

IDEs: VS Code, Pycharm.

Other Skills: Postman, JIRA, Windows, RESTful API's

Work Experience

Role: Software Engineer

Company: Savina Software PVT LTD.

March 2022 - Aug 2024

Hyderabad

- Developed responsive and interactive user interfaces using **React.js, JavaScript (ES6+), HTML5, CSS3, Bootstrap**.
- Built reusable React components and managed state using **React Hooks and Context API**.
- Integrated **RESTful APIs** with frontend using Axios for seamless data flow.
- Designed and implemented form handling, validation, and dynamic rendering to enhance user experience.
- Collaborated with backend teams to ensure smooth **API integration** and consistent data handling.
- Optimized frontend performance through lazy loading, code splitting, and efficient rendering.
- Ensured cross-browser compatibility and mobile responsiveness.
- Worked with **Git & GitHub** for version control, code reviews, and collaborative development.
- Participated in **Agile** ceremonies such as sprint planning, daily stand-ups, and retrospectives for effective project delivery.

Project: HIS (Health Insurance System) | **Domain:** Health Care

Description: Web-based application managing health insurance plans, eligibility determinations, user accounts, and administrative tasks for New Jersey citizens.

Roles & Responsibilities:
